KT Board Award (contingent on Contract approval and Buy America compliance)	<b>November 6, 2018</b>

## ADDENDUM #23

**Revise: Fast Ferry Technical Specification Southworth/Kingston to Seattle SWBS GROUP 2 PROPULSION PLANT, 200 PROPULSION PLANT GENERAL paragraph 3 as follows (Revision shown in BOLD):**

The main propulsion power for this vessel shall be driven by the required number of conventional propellers, waterjets or tunnel jet units, each driven by a diesel engine, through a reversing reduction gear. The main propulsion system shall have sufficient power and thrust to achieve the specified design speed. The propulsion plant make-up and configuration shall be specified by the Contractor. The Owner requires a ~~four~~ **TWO** engine propulsion system.

**Clarification:** Kitsap Transit has extended the Proposal Due Date for this solicitation due to the agencies change in propulsion system configuration. Proposers are advised that all other requirements, specifications and contract clauses remain the same. The following is a list of those requirements, specifications and contract clauses (this list is not to be considered exhaustive):

- Federal Clauses and Certifications including Buy America
- Contract Clauses related to Liquidated Damages
- Acceptance Criteria
- Warranty Clauses

**All other terms and conditions remain the same.**

END ADDENDUM 23
