

Subject: Overall Goals and Methodology
Reference: Overall Goals (49 CFR part 26.45)
Name of Recipient: Kitsap Transit
Goal Period: Federal Fiscal Years 2018 – 2020

The purpose of the Disadvantaged Business Enterprise (DBE) overall goal is to achieve a “level playing field” for ready, willing and able DBEs seeking to participate in DOT-assisted contracts. In an effort to reach this level playing field, Title 49 Code of Federal Regulations (CFR) Part 26.45 requires recipients of USDOT federal-aid to utilize a two-step process in the development of their overall DBE goal.

OVERALL GOAL

Kitsap Transit’s overall goal has been determined to be 2.93%. Kitsap Transit made an adjustment to the base figure of 4.25% using the last 3 year’s participation rate resulting in the final DBE overall goal of 2.93%. Kitsap Transit intends to use 2.93% as an attainable goal based on the following methodology.

STEP ONE: Develop a Base Figure for the Relative Available DBEs

The base figure for the relative available DBE’s is the ratio of certified DBE’s relative to the total firms available in the relevant region and industry. Kitsap Transit has adopted the State of Washington as its relevant region. Kitsap Transit has also narrowly tailored and weighted its ratio calculation to services and industries likely to benefit from federally funded projects.

US Census WA County Business Patterns	898	1,850	1,805	60	649	1,560	332

Following Step 1 in 26.45(c), Kitsap Transit applied the ratio of certified DBE’s (source: OWMBE directory of certified DBE’s) to total Washington firms (source: Census Bureau’s county business pattern database) for each relevant industry code to the planned capital expenditures of each industry code. Kitsap Transit’s base DBE goal is 4.25% and is calculated as follows:

Project	Transit Vehicle Purchase	Construction - Commercial (236220)	Construction - Electrical (238210)	Construction - Plumbing/HVAC (238220)	Manufacturing - Ship Bldg/Repair (336611)	Prof & Technical Architectural (541310)	Prof & Technical Engineering (541330)	Prof & Technical Environmental (541620)

STEP TWO: Adjustment of the Base Figure

The second step in the process is to adjust the base figure based on Kitsap Transits contracting circumstances. Past participation was used for calculating the DBE goal based on similar contracting opportunities forecasted in FFY 2018-2020. The historical median (not average) was used to measure past performance and was then averaged with the Step One Base Figure to arrive at the adjusted goal. Based on DBE past participation, Kitsap Transit's adjusted DBE goal is 2.93% and is calculated as follows:

Part II - Adjustment			
Agency DBE Base Goal		4.25%	
Prior Year DBE Participation (Median)		1.61%	
Adjusted DBE Goal (avg. of base & prior year participation)		2.93%

Actual DBE Goal	2.05%	2.05%	2.48%
Past DBE Participation	0.00%	9.30%	1.61%

Means to Meet Overall DBE Goal

Kitsap Transit will use race/gender-neutral means to encourage DBE participation in its federally assisted contracts. In 2012, Washington State Department of Transportation (WSDOT) retained BBC Research and Consulting (BBC) to conduct a “disparity study” to assist in its implementation of the Federal DBE Program. Kitsap Transit has reviewed the disparity study and chose not to use it based on its contracts and relevant geographic market areas. WSDOT operates across the entire state and tailored its DBE goal based on its contracts and relevant market area.

Public Involvement in the Overall Goal Setting Process

Kitsap Transit made available through public notice and public hearing the proposed overall goal and methodology. A notice of disadvantaged business enterprise goal for federal fiscal years 2018 – 2020 was published in May and June of 2017 (see attachment A). The goals and methodology were also available for inspection during normal business hours at Kitsap Transit’s administrative office located at 60 Washington Ave., Suite 200, Bremerton WA for a period of 30 days following the date of the notice. Public comments were accepted up to 45 days from the date of the notice.

Kitsap Transit consulted with several community organizations that have information about local marketplace conditions for DBEs. During these meetings, Kitsap Transit discussed its proposed overall DBE goal and rationale for the goal and also solicited comments about the goal. Kitsap Transit consulted with the following organizations:

- Kitsap County Agency Advocates
- Mesa Redonda De Kitsap Transit
- Washington State Office of Minority & Women’s Business Enterprises

No comments or feedback was provided. Based on the consultation process no changes were made to Kitsap Transit’s proposed DBE goal.

A Resolution adopting Kitsap Transit’s proposed DBE goal of 2.93% for the federal fiscal years 2018 – 2020 was on the agenda for consideration at the Kitsap Transit Board of Commissioners’ regular meeting on June 6, 2017 (see attachment B). Comments could be submitted at the public hearing on June 6th on the proposed goal or to the office of Kitsap Transit prior to the meeting. During the public hearing, Kitsap Transit discussed its proposed overall goal and rationale for the goal and solicited comments about the goal from meeting participants. No comments or feedback was provided other than general consensus.

De Jong was on paternity leave, manager Scott Servais took De Jong to the mound at Minute Maid Park in Houston during the workout before the season opener. He was like, 'Stand on the mound,' De Jong said. 'I didn't do that in about a year. But it used to be part of my thing, and now I'm getting back to it.' That time in Houston didn't go quite as planned. In his first appearance, De Jong gave up a walkoff homer to George Springer in the 13th inning of a 5-3 loss, which wasn't any part of the visualization process. He was sent down to Tacoma after the game.

"A bunch of people asked me, 'Are you just going to try and forget about Houston,'" he said. "I was like, 'No. There's stuff to learn from that. There's stuff to learn from every outing.'"

De Jong replayed the inning in his mind, watched the video, analyzed it some more and then came away with an understanding of it.

"I made good pitches there," he said. "I went out and I executed. I got relatively weak contact. The walk to (Evan) Gattis is something I played out over and over in my head. I think I could've attacked him a little more aggressive. Even on the homer, the ball landed just over the fence. So it's a homer. He popped it up. He didn't great barrel on it. I made my pitch. I just didn't get the result I wanted."

Had De Jong remained with the Dodgers, there's no telling when he would've gotten that moment or an opportunity. He was mired behind a slew of veterans on the Dodgers' pitching depth chart. So when Mariners general manager Jerry Dipoto traded for him this spring,

it kick-started his career.

"I'm so grateful to this organization for having the faith in me and giving me this opportunity," he said.

De Jong will have his mother and father and fiancée in the stands Sunday, along with some other relatives that live in the area.

"This is incredible," he said. "My first major-league start. It's a dream come true."

NOTE

The Mariners continue to deal with injuries, which forced yet another roster move Saturday morning. The team announced that right-handed reliever Evan Scribner was placed on the 10-day disabled list with a flexor-bundle strain in his right elbow. To fill his spot on the roster, the team recalled outfielder Boog Powell from Class AAA Tacoma.
