I. Questions Asked and Answers Given

I. **Questions Asked and Answers Given**

Question: The OEM supplier for Caterpillar engines cannot deliver the rebuilds within the designated period of performance.

Answer: Kitsap Transit has reached out to the OEM Caterpillar engine market and understands that there are issues within the supply chain for the necessary parts needed to complete the required rebuilds. As such, Kitsap Transit will work with the Awarded Vendor and the OEM equipment manufacturer to ensure all parts needed for the scheduled rebuild are in house before the vessel is delivered to the Shipyard.

Kitsap Transit will issue a preliminary Notice to Proceed that will allow the Awarded Vendor to order parts. Once all of the parts are in house, Kitsap Transit will issue a Notice to Proceed for the actual work. Vendors will have forty-five (45) Calendar days to complete the Work from said Notice.

All other terms and conditions remain the same.

END ADDENDUM 2

Please remember to acknowledge this addendum.
